As-new 5½-room detached house with a study under the roof

5½	168 m²	20 m²	CHF 1'680'000
ROOMS	LIVING AREA	PATIO	PURCHASE PRICE

Description

Built in 2019, the house still feels brand new. Its 168 m² of living space comprise 5½ rooms. Large windows with glazing bars let in plenty of daylight, and oak parquet runs through all living areas. Underfloor heating is powered by a heat pump.

At its heart is the open kitchen with light wood fronts, an island with a quartz worktop and brass pendant lights – a place to cook, eat and spend time together. The bathroom, with fir-green ceramic tiles, a bathtub and a wooden vanity, is complemented by a separate shower room. Under the roof, a quiet study with built-in cupboards also works well as a guest room or hobby room.

Outside, the covered 20 m² patio is made for long summer evenings; the plot measures 420 m². Wetzikon station is about a 10-minute walk away (according to the seller), with shops and schools nearby.
